❖ EDUCATION

B.E Information Technology, *Shree L.R. Tiwari College of Engineering* **2022 - 2026**
Mumbai University - CGPA: 7.3 *Mumbai, India*
Honours in Data Science **2024 - 2026**

❖ TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, SQL, NoSQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux
Backend: Node.js, Express.js, REST APIs, JWT, Middleware, CRUD, LLM Integration
Databases & Caching: MongoDB, MySQL, Redis
Tools & Platforms: Git, GitHub, VS Code, Android Studio, IntelliJ IDEA, Postman
Other: Linux, Flutter, Multer, Audio Streaming, ID3 Metadata Extraction

❖ PROJECTS

Creater Plateform (SaaS Lite) | Link **Oct 2025**
MongoDB, Express.js, React.js, Node.js, Redux, JavaScript, JWT, REST APIs

- Built a full-stack creator platform with JWT authentication and role based access control (user/admin)
- Developed REST APIs for posts, likes, comments, and follow system
- Implemented feed with pagination/infinite scroll (~30% faster load)
- Implemented creator analytics dashboard using MongoDB aggregation (posts, likes, comments, top content)
- Added scheduled posting using cron jobs for automated publishing
- Built notification system for likes and comments

Real Time Emotion Aware Music Player | Link **Jan 2026**
MongoDB, Express.js, React.js, Node.js, MediaPipe, JavaScript, Redis

- Built a full-stack mood-based music player with real-time emotion detection using MediaPipe face landmarks
- Processed facial expressions via webcam to derive emotion-related parameters for mood classification
- Developed REST APIs and custom audio player with controls (play, seek, volume, speed)
- Implemented Redis caching to optimize authentication performance (~40% faster validation)
- Delivered mood-based music recommendations based on detected facial expressions

AI Model Arena The Optimal Answer Engine | Link **Mar 2026**
Node.js, Express.js, React.js, JavaScript, LLM API

- Built a platform to compare responses from multiple LLMs and determine optimal answers
- Integrated multiple LLM APIs for parallel response generation and prompt handling
- Designed a UI for side-by-side comparison and evaluation of model outputs

❖ EXPERIENCE

Full Stack Developer Intern **Jan 2026**
Technohacks Solution Pvt. Ltd *Remote, India*

- Developed features for a task management platform using the MERN stack.
- Implemented JWT-based authentication and role-based access control (RBAC) for secure user operations
- Built RESTful APIs with MongoDB for CRUD operations and data handling
- Developed reusable React components for an improved and maintainable UI
- Used Git/GitHub for version control and Postman for API testing
- Debugged frontend-backend integration issues to ensure smooth API communication

❖ EXTRACURRICULAR

Hackathons *college, Mumbai, India* **April 2025**
Participant - Participated in a hackathon, contributing to full-stack development and teamwork under deadlines.

Student Council *college, Mumbai, India* **June 2024**
Graphic Designer – Designed posters and social media creatives, contributing 120+ hours under deadlines.

❖ CERTIFICATIONS

• Full Stack Development-Apna College • SQL Bootcamp-LetsUpgrade • Software Engineering Job Simulation – Forage
